

1505-UNIVERSAL KERB HANDLE

The 1505 Universal Kerb Handle is designed for use by two operatives to move various kerb stones thanks to its large variable jaw width.

Its simple design ensures safe and efficient movement of kerb stones from point of load to placement.

Suitable for open bottom and Euro style pallets

Appearance may vary from picture above.

Product Code	SWL (kg)	Jaw Width (mm)	Internal Depth (mm)	Length (mm)	Weight (kg)
1505.1	200	0-600	220	200	12
